SPN208S
Fine Protection

SPN140D
Medium Protection

hager

Class II Surge Protection Connection
Connected to the mains power supply, Hager's surge protection devices help protect equipment from high voltages caused by lightning strikes and high transient voltages present in the network power supply.

When Class II Medium & Class II Fine Protection devices are used in cascade, the residual voltage is reduced to 800V or below. This is generally accepted as the safe limit for electronic equipment.

MAXIMIZE THE USE OF YOUR PV GENERATED POWER

- *Automatically diverts any surplus PV generated energy to immersion element without importing from the grid to maximise self-consumption*
- *Provides free hot water and automatically adjusts with household energy demand*
- *Designed for resistive loads such as the immersion heater (up to 3 kW)*
- ***Universal:** completely independent from inverter and meters*
- ***Easy to setup:** retrofit without any tampering to existing PV install*
- ***Easy to install:** no plumbing skills necessary*
- *Lab tested for safety and compliance*

Install with complete peace of mind, fuly CE and EMC certified!

Livewire Terms and Conditions

Livewire (Publication) is a marketing communication to trade customers holding an account with Ideal Electrical Suppliers Limited (Ideal) trading as Ideal Electrical Suppliers or Egley Electrical Co. All product (or otherwise) (Items) promoted in the Publication are for trade account holders only (Purchaser).

Purchase of any Item listed in the Publication is deemed acceptance of these Livewire Terms and Conditions.

Prices illustrated in the Publication are GST exclusive (unless otherwise stated) and valid only for the period set out in the specific Publication. Any applicable delivery or freight charges are in addition to the prices set out in the Publication.

Promotions for Items set out in the Publication are not valid in conjunction with any other offer. Where specific project or special contract pricing has been requested and granted for Items that may appear in the Publication, no promotional benefit as set out in the Publication (such as bonus gifts) shall apply to those Items.

Prices for Items in the Publication are promotional prices and may differ from the prices for the same Items available from Ideal branches from time to time.

It is not the purpose of the Publication to provide product selection, suitability and or application advice to the Purchaser. At all times Ideal recommends that a registered electrician is contacted for advice regarding suitability, installation, testing and commissioning of all Items including electrical components, appliances and accessories.

All Items sold on the terms set out in the Publication are subject to availability. All Items listed in the Publication may not necessarily be stocked by all branches, however in most cases Items will be available within the network ready for despatch.

Any promotion, competition, clearance or special offer (Offer) is subject to limited availability. When limited availability of an Item or good provided to a Purchaser as a result of an Offer as a bonus or promotional prize or gift (Bonus Gift) has been exhausted, the Offer regarding that Item or Bonus Gift shall be deemed to have ended.

Bonus Gifts are not transferable or exchangeable and cannot be returned to Ideal for cash or credit. Ideal may substitute any Bonus Gift for another good of equivalent value if the Bonus Gift is not available for any reason. Ideal reserves the right to reclaim any Bonus Gift if the initially purchased Item (if any) under the relevant Offer is returned to Ideal.

Ideal reserves the right to cancel, suspend, terminate or modify any promotion set out in the Publication or any Offer if any factor beyond Ideal's reasonable control adversely affects Ideal's ability to conduct the promotion or Offer.

All Items and Bonus Gifts are subject to the terms and conditions set out in Ideal's standard terms of trade. A copy of Ideal's standard terms of trade is available on request. In the event of any inconsistency between the terms of these Livewire Terms and Conditions and the terms of Ideal's standard terms of trade, the terms of these Livewire Terms and Conditions will prevail.

Whilst every effort is made to ensure that pricing and other information contained within this publication is correct, Ideal reserves the right to correct pricing and any other information where an error or omission has been identified.

No brands, logos or any other information contained within the Publication may be reproduced or copied without prior written permission from Ideal.

To the maximum extent permitted by law, Ideal does not accept any liability (including any liability for negligence) for any damage or loss arising, directly or indirectly, from any promotion set out in the Publication, any Offer, any errors or omissions in the Publication or any misuse, accident, neglect, improper installation or operation of Items or Bonus Gifts. Ideal's liability (if any kind) in respect of any defect or failure of any Item is strictly limited to a refund or the replacement of that Item, at Ideal's discretion, provided that the defect or failure occurs within the specified supplier warranty period (if any) and the Item is returned promptly after discovery of the defect or failure together with details of that defect or failure.

The Purchaser, as a trade account holder, is purchasing Items promoted in the Publication for the purposes of a business and the provisions of the Consumer Guarantees Act 1993 will not apply. Nothing in these Livewire Terms and Conditions is intended to restrict or exclude any consumer rights under that Act (if applicable).

Prices are for trade accounts only. Prices displayed are valid from Monday 2nd November 2015 - Friday 29th January 2016 or while stocks last. All prices displayed exclude GST.
